Scoutwise
Asset Management

Seamless Asset Tracking, Anywhere

Scoutwise delivers cutting-edge Scanner, RFID, and 4G solutions for real-time asset management. Whether you need simple barcode scanning, RFID automation, or remote 4G tracking, our solutions enhance accuracy, efficiency, and visibility—empowering businesses to streamline operations, reduce costs, and make data-driven decisions with ease. Track smarter. Work faster.

SCOUTWISE SCANNER

Our Standard Scanner System offers an efficient and cost-effective solution for tracking and managing assets with accuracy. Designed for industries such as retail, warehousing, and healthcare, this system streamlines inventory control and operational efficiency.

- **Accurate Data Capture:** Minimize manual errors and enhance precision with barcode scanning.
- **Fast and Efficient Processing:** Reduce time spent on asset tracking and inventory checks.
- **User-Friendly Interface:** Easy to set up and operate with minimal training required.
- **Cost-Effective Solution:** Affordable technology without sacrificing efficiency or reliability.
- **Seamless Integration:** Compatible with existing inventory management and ERP systems.

SCOUTWISE RFID

Our RFID Asset Tracking Software provides real-time visibility and control over your assets, ensuring seamless management and optimized efficiency. Designed for industries ranging from logistics to healthcare, this system enhances accuracy, reduces losses, and improves operational workflows.

- **Real-time tracking:** Instantly locate and monitor assets with RFID tags and automated scanning.
- **Enhanced accuracy:** Reduce human errors and improve inventory precision with automated data capture.
- **Increased security:** Prevent asset loss and unauthorized movement with alerts and audit trails.
- **Scalability:** Adapt the system to track assets across multiple locations and business scales.
- **Custom integration:** Data import is compatible with most existing ERP and warehouse management systems.

SCOUTWISE 4G

Our 4G solution provides seamless and fast wireless connectivity for businesses requiring reliable data transmission. Designed for industries such as logistics, remote operations, and retail, this system ensures high-speed internet access with enhanced mobility and flexibility.

- **High-Speed Connectivity:** Enables fast and efficient data transfer for real-time operations.
- **Reliable Network Coverage:** Ensures stable connections even in remote or mobile environments.
- **Scalability:** Supports multiple devices and applications without compromising performance.
- **Secure Data Transmission:** Protects sensitive business data with advanced encryption.
- **Easy Deployment:** Quick setup with minimal infrastructure requirements.

SCOUTWISE SCANNER

OVERVIEW

Scoutwise Scanner Solution delivers a streamlined and efficient approach to asset tracking using advanced scanning technology. Designed for businesses seeking an intuitive and cost-effective solution, our scanner system ensures real-time tracking, improved inventory accuracy, and seamless asset monitoring—all without the complexity of full RFID integration.

With a simple scan-and-go functionality, organizations can eliminate manual errors, enhance operational visibility, and optimize resource utilization. Whether managing equipment, valuable tools, or supplies, the Scoutwise Scanner Solution seamlessly integrates with existing workflows, providing actionable insights that drive efficiency, compliance, and cost savings.

BENEFITS

- Real-Time Tracking
- Enhanced Inventory Accuracy
- Streamlined Operations
- Improved Resource Utilization
- Cost Savings
- Seamless Integration
- Scalable Solution
- Actionable Insights
- Compliance & Reporting
- Increased Productivity

SCOUTWISE RFID

OVERVIEW

Scoutwise offers advanced RFID software designed to revolutionize asset management for businesses. By leveraging RFID technology, the software provides real-time tracking, efficient inventory management, and seamless asset monitoring. It eliminates manual errors, enhances operational visibility, and ensures better resource utilization. Ideal for companies managing extensive inventories or high-value assets, Scoutwise's solution integrates easily with existing systems to optimize workflows and improve decision-making. Whether it's tracking equipment, tools, or supplies, Scoutwise empowers organizations with actionable insights and enhanced efficiency, driving productivity and cost savings.

BENEFITS

- Real-Time Tracking
- Enhanced Inventory Accuracy
- Streamlined Operations
- Improved Resource Utilization
- Cost Savings
- Seamless Integration
- Scalable Solution
- Actionable Insights
- Compliance and Reporting
- Increased Productivity

SCOUTWISE 4G

OVERVIEW

Scoutwise's 4G-enabled asset management solution provides real-time tracking and remote visibility without the need for on-site infrastructure. Designed for businesses that require instant, reliable asset monitoring across multiple locations, our 4G solution ensures seamless connectivity, efficiency, and control—anytime, anywhere.

By leveraging cellular connectivity, this solution eliminates manual tracking errors, enhances inventory accuracy, and optimizes resource utilization. Whether managing mobile assets, remote equipment, or high-value inventory, Scoutwise 4G offers scalable, always-on tracking with actionable insights to streamline operations, improve compliance, and drive cost savings.

BENEFITS

- Real-Time Tracking Anywhere
- No On-Site Infrastructure Required
- Enhanced Inventory Accuracy
- Optimized Resource Utilization
- Scalable & Remote Monitoring
- Seamless Integration

- Actionable Insights
- Compliance & Reporting
- Increased Productivity
- Cost Saving Automation

ITS ALL IN THE
REPORTING

Using our deep experience in the industry, we've included the best preset reports for asset tracking and management.

Custom options

Think we left something out? We're able to match your needs through our flexible onboarding process.

Fast results

Scoutwise is built from the ground up for speed. Have a lot of data? We're certain our software will find it fast.

Save your findings

Reports in our system can be saved offline using quick Excel and PDF export options.

INDUSTRY EXPERIENCE…
IT'S ALL ABOUT **SCOUT**

When we set out to design the perfect asset tracking software in 2012, had already employed and researched what the market had to offer for years. Knowing there must be a better solution, we became determined to create that solution for ourselves. We have been upgrading and refining our software ever since. When it comes to the providing the best possible experience using asset tracking software, look no further than Scoutwise.

1 **Asset Tracking On Demand**

Our mobile application ensures that you're able to scan and track your assets from anywhere in your facility.

2 **Easy-to-Use Software**

We've spent years ensuring that our user interface is friendly, clean and easy-to-use for any technical level.

3 **Security for Assets**

Leveraging the Amazon cloud and all the security and benefits it has to offer, we ensure your data is safe.

4 **Reporting**

We've included all the reports (and custom reports) you need to gather data on your assets.
